Display

48px · Inter Bold · ~2%

Large billboard/hero statements

Heading 1

36px · Inter Bold · ~1.5%

Primary page-level headers

Heading 2

24px · Inter Bold

Sub-section module division

Heading 3

20px · Inter SemiBold

Sub-cards and component headers

Body Text

16px · Inter Regular

Default copy for documentation & narrative

Caption

12px · Inter Regular

Technical labels, specs, and status overlines

Synthetic Future

Precision Digital Engine

Surgical UI Architecture

Obsidian-void layout discipline

The MVX brand framework thrives on clinical execution. We strictly avoid all pixelated and retro-block elements in favor of streamlined vector flows.

METADATA PROTOCOL // ACCENT LIGHT ACTIVE_STATE 0.941

03 / Precision UI Layering

LIVE GLASS TREATMENT RENDER

GLASS_SYSTEM_SPEC

Synthetic Blur Level 24

White fill @ 8% · White border @ 15% · Heavy backdrop blur

LAYERING ANATOMY & STACK ORDER

05

UI CONTENT

Pure White (#FFFFFF) text & vivid surgical icon assets

04

SURGICAL BORDER

1px outer/inside stroke, Pure White @ 15% opacity (#FFFFFF26)

03

POLY FILL

Solid Pure White @ 8% opacity (#FFFFFF14) for matte finish

02

REFRACTIVE BLUR

Backdrop blur (Radius: 24px) to diffuse underlying vector geometry

01

BACKGROUND VOID

Deep Obsidian surface (#1F2937) with electric glowing nodes
